Peerless® Handcuff Company

Setting the Standard Since 1914

Peerless® Handcuff Company was established in 1914 by James Milton Gill in Springfield, Massachusetts. Over eighty years later, the classic swing through design of the original Peerless® handcuff, continues to be the industry standard. Now in its fourth generation, Peerless® remains a family business committed to producing the finest restraints available.

Peerless® Handcuff Company offers a full line of restraints including handcuffs, leg irons, waist chains, transport equipment and keys. All of our products are designed to meet or exceed the tough U.S. National Institute of Justice standards for strength and quality.

Please call (800) 732-3705 with any questions concerning our products or the location of a local distributor. Information is also available through our web site at www.peerless.net or through email at info@peerless.net.

"PEERLESS" and its "HANDCUFF" logo are registered trademarks of the Peerless® Handcuff Company.

Peerless® Handcuff Company introduces its new color-plated restraints

Select Peerless restraints are now available in a five different color plated finishes - blue, red, orange, yellow and pink.

Why color finishes? Color helps to prevent equipment loss by allowing individuals, agencies or departments to more easily identify and track property during arrests, transports and training. Colors can also be used to enable or reinforce a classification system such as threat level, medical condition, jurisdiction and more.

The color coating is applied using a process called Electrolytic Polyurethane Plating (EPP). EPP fully coats restraints inside and out without interfering with the lock mechanism or jaw swing-through. The durable EPP finish is resistant to chipping and scratching. The rust resistant EPP finish exceeds the National Institute of Justice's 12 hour salt spray testing standard.

Models available are chain link, hinged, oversize handcuffs and leg irons.

All Peerless® products are backed by our lifetime guarantee for manufacture defects, assuring you of the highest quality material and workmanship. When you want restraint devices that you can depend on, you want Peerless®.

MODEL 700 & 750

Chain Link Handcuff

The classic design. The Model 700 & 750 incorporates spun rivet construction for strength and durability. Smooth single strand action allows for fast and efficient cuffing. The profiled edges minimize the risk of tissue and nerve injury. Both the Model 700 & 750 have been approved by the National Institute of Justice. The Model 750 is available with EPP color coating in pink, orange, blue, yellow and red. Double locking with two keys supplied. Lifetime warranty for manufacture defects. Made in USA.

MODEL 7030

OverSize Chain Link Handcuff

The Model 7030 is designed specifically for larger individuals. This oversized cuff has a 20% larger inside perimeter than the Model 700. The Model 7030 has a smooth single strand action, profiled edges and spun rivet construction. Built to meet the National Institute of Justice standards for metallic handcuffs. Available with nickel plating or EPP color coating in pink, orange, blue, yellow and red. Lifetime warranty for manufacture defects. Made in USA.

MODEL 801 & 850

Hinged Handcuff

The Peerless® Model 801 & 850 provide additional restraint by more effectively restricting hand and arm movements. The Model 801 & 850 features all steel construction, spun rivets, machined edges and smooth single strand action. The Model 801 & 850 have a 10% larger inside perimeter than the Model 700 and have been approved by the National Institute of Justice. The Model 850 is available with EPP color coating in pink, orange, blue, yellow and red. Double locking with two keys supplied. Lifetime warranty for manufacture defects. Made in USA.

MODEL P010

Chain Link Handcuff

The Model P010 Chain Link Handcuff is intended to fit increasingly tight budgets without compromising safety. Designed and tested to rigorous standards to meet the tough demands often placed on this critical piece of equipment the P010 is manufactured in Korea at an ISO/TS 16949 and ISO14001 certified facility using high quality materials and component parts. The P010 has been tested and approved by the National Institute of Justice. The Model P010 is standard sized, double locking, with two keys supplied. Lifetime warranty for manufacture defects.

MODEL 703

Leg Iron

The Model 703 Leg Iron features all steel construction, spun rivets and a rust resistant nickel finish. Built to meet the National Institute of Justice standards for metallic handcuffs. Machined edges minimize the risk of tissue and nerve injuries. The 15" chain effectively limits range of motion. Double locking with two keys supplied. Also available with EPP color coating in pink, orange, blue, yellow and red. Lifetime warranty for manufacture defects. Made in USA.

MODEL 705

Oversize Leg Iron

The Model 705 is designed specifically for larger individuals. It has a 3.25 inch opening with a maximum inside perimeter 20% larger than the Model 703 Leg Iron. It features all steel construction, spun rivets and a rust resistant nickel finish. The 15" chain effectively limits range of motion. Double locking with two keys supplied. Lifetime warranty for manufacture defects. Made in USA.

MODEL 7002

Waist Chain with Handcuffs Located at Hip

The Model 7002 Waist Chain is designed for maximum security situations. The Model 7002 has one Model 700 handcuff positioned at each hip allowing for either parallel arm or cross arm handcuffing technique. The special heat treated steel chain and padlock rings assure adjustment up to 54 in. waist. Double locking with two keys supplied. Lifetime warranty for manufacture defects. Made in USA.

MODEL 7003

Waist Chain with Handcuffs Located in Front

The Model 7003 Waist Chain is designed for high security transportation, courtroom and processing situations. The Model 7003 Waist Chain has a set of Model 700 Chain Link Handcuffs positioned at the navel allowing for limited use of the hands. The special heat treated steel chain and padlock rings assure adjustment up to 54 in. waist. Double locking with two keys supplied. Lifetime warranty for manufacture defects. Made in USA.

HIGH SECURITY RESTRAINTS

Peerless high security products are designed for high risk prisoner restraint and transport situations. These products do not operate with standard handcuff keys. The restraints incorporate standard product with a MEDECO® or ASSA® Desmo high security lock system and Lexan® polycarbonate housing. Multiple sets can be ordered keyed alike or each set can be keyed different. Both MEDECO® and ASSA® Desmo use restricted key control systems to prevent unauthorized key duplication. The Lexan® polycarbonate housing is nearly unbreakable and is color coded orange for high visibility. Available as chain link handcuff, leg irons, and waist chains. Features include spun rivet construction, double lock capability, and profiled edges. All products come with two keys, a double lock activator, and a lifetime warranty for manufacture defects. Made in USA.

MEDECO® is a registered trademark of Medico High Security Locks.
ASSA® Desmo is a registered trademark of Abloy Security, Inc.
Lexan® is a registered trademark of General Electric Company

Model 710

Model 703HS

OVERSIZE HANDCUFF KEY

A high quality extra large key designed to make double locking and unlocking restraints faster and easier. The extra long aluminum barrel is oversized and knurled for lighter weight and easy handling. The flag tip and double lock pin are made from heat-treated alloy steel for high strength and durability. Compatible with all standard type handcuff locking mechanisms. Available in silver and black finish. Comes with a key ring and lifetime warranty for manufacture defects.

STANDARD HANDCUFF KEY

Standard size handcuff key. Small and lightweight. Compatible with all standard type handcuff locking mechanisms.

CUFFCLIP™

CUFFCLIP™ is a convenient, efficient, and safe way to carry as many as 12 pairs of handcuffs. Invented by a law enforcement veteran, the patented CUFFCLIP™ is designed to be worn with a standard size 2.25 in duty belt. The simple but durable device consists of a heavy duty stainless steel main spring welded to a pair of belt loops. Handcuffs are easily carried and can be quickly and efficiently managed with one hand while reducing the chance of a prisoner gaining access to unsecured handcuffs. It comes with a lifetime warranty for manufacture defects.

CUFFCLIP's unique design allows for easy single-handed use.
